

17:00 - 20:00 - FSDI 105 Session #1 Cohort 27

- jQuery uses the \$ ("do more and write less"), it is a collection of functions that you can use, it is JS framework.
- `.val() = .value`
- JQuery selectors are:
 - `id ---- > #`
 - `class -----> .`
 - `tagname -----> tagname`
- `LocalStorage`
